

## Coping with emergencies

**What would happen if YOU were involved in an unforeseen emergency?**

**Have you made plans for coping in a crisis?**

Most carers have an additional worry about their own involvement in an emergency situation. You may be caught up in traffic or, more seriously, faced with your own sudden illness, an accident or a family crisis. Understandably, you worry about situations which leave the person you care for without help. How will they manage? Can replacement care be arranged quickly and efficiently?

Emergency planning services exist to give carers peace of mind – these may involve providing details of reliable contacts who could act on your behalf in an emergency although this is not always necessary. These services vary according to where you live. Below are details of the services that exist if the person you care for lives in North Yorkshire or in Bradford Metropolitan District.

### **North Yorkshire Carer's Emergency Card**

This is a free service available to anyone aged over 18 years who cares for someone who lives in North Yorkshire. It is run by North Yorkshire County Council (NYCC).

#### **How does the Carer's Emergency Card work?**

You will need a Carers Emergency Card which comes with information about the scheme and how to register. You can obtain a card from a Carers' Resource office or any North Yorkshire library. Alternatively, phone NYCC Customer Services on 01609 780780 to have a card posted out to you or request one online: [www.northyorks.gov.uk/cec](http://www.northyorks.gov.uk/cec).

A Carers Emergency Card is a small plastic card, similar in size to a credit card, which identifies you as a carer but does not contain personal details other than your unique ID number and a 24 hour contact number. Once activated, keep it with you at all times.

To activate the card, you will need to register with NYCC, giving information about yourself, the person you are caring for, and people who have agreed to be contacted in an emergency. You can nominate up to 3 contacts (aged over 18). Do make sure everyone involved understands how the scheme works and your proposed emergency plans. You must have their consent before registering.

If an emergency arises, you (if you are able), or another person, should call the telephone number on your card and quote your ID number. Your named contact(s) will be informed so they can provide appropriate help. If you do not have anyone to be your contact or your named contacts do not respond, NYCC will act on your behalf.

**The Carers Emergency Card will not be active until it has been registered.**

See page 2 for details on how to register your Carers Emergency Card.

## **Registering your Carer's Emergency Card**

Your card should be registered online at: [www.northyorks.gov.uk/cec](http://www.northyorks.gov.uk/cec).

If you are unable to complete an online registration form at home, or you need help with registration, please contact your local Carers' Resource office or your local library.

Carers who cannot access the internet either at home or with other help, should contact NYCC Customer Services on 01609 780780.

## **Bradford Metropolitan District Emergency Plan**

This is a free service available to anyone aged over 18 years who cares for someone who lives within Bradford Metropolitan District. It is run by Carers' Resource in partnership with Safe and Sound, Bradford Metropolitan District Council's (BMDC) Community Alarm System.

### **How does the Emergency Plan work?**

To register for the scheme contact the Carers' Resource:

- by email: [emergencyplanning@carersresource.org](mailto:emergencyplanning@carersresource.org), or,
- by telephone: on 01274 449660 or 01756 700888, or,
- by visiting the website: [www.carersresource.org](http://www.carersresource.org)

You will be asked to give information about yourself, the person you are caring for, and up to two people who can be contacted in an emergency. These are called your 'responders'. Do make sure everyone involved understands how the scheme works and your proposed emergency plans. You must have their consent before registering.

The carer receives a wallet-sized plastic card and a keyring which identifies them as a carer but does not contain personal details other than a unique ID number and a 24 hour contact number. This must be kept with you at all times.

If an emergency arises, you (if you are able), or another person, should call the telephone number on the card and quote the ID number. Safe and Sound will inform your named responder(s) so they can provide appropriate help. If you do not have anyone to be your responder or they do not respond, Safe and Sound will ask BMDC Adult and Community Services Access Point to act on your behalf.

The following are other schemes that may be useful in an emergency situation:

### **Message in a Bottle**

The scheme is designed to help anyone who has an accident or sudden illness at home. It involves filling in personal and medical details (including details of 'cared for' people) on a standard form which is then placed in a small plastic bottle in a common location – the fridge. Two stickers are provided – one to go on the inside of the front door, the other on the outside of the fridge door. Emergency services are aware of the scheme and will know where to find the Message in a Bottle. Local Lions clubs are responsible for supplying the bottles. Call 0121 441 4544 for details of your nearest Lions club or email: [enquiries@lionsclubs.co](mailto:enquiries@lionsclubs.co).

## **ICE – In Case of Emergency**

Use your mobile phone's address book to store the names of people who should be contacted in an emergency – use the prefix 'ICE' for these names. Emergency personnel recognise this scheme and by checking 'ICE' can identify and call your emergency contacts. Medical notes can also be stored on the phone.

Your phone provider will be able to advise how to do this to ensure that your emergency contacts and medical information can be accessed quickly and easily without unlocking the phone.

## **Medical ID Alert Bracelets**

A medical identification tag is a small emblem or tag worn on a bracelet, neck chain, or on the clothing bearing a message that the wearer has an important medical condition that might require immediate attention. The tag is often made out of stainless steel or sterling silver.

Contact your local hospital and ask them if they offer free medical ID bracelets. If they don't, ask if they know of any medical foundations in the area that provide these bracelets for free. Your doctor is usually another excellent resource for providing information on free or low-cost medical ID bracelets.

## **Medical Alert Information Card**

This is a credit-card sized plastic card that allows emergency services to have instant access to your medical history and prescription drugs.

## **What3Words**

Postcodes don't always identify a specific location. To be able to do this in an emergency situation could potentially be life-saving.

What3Words – which is free to emergency services and members of the public – has divided the world into three-metre squares and given each one a unique three-word label. The three word combinations can seem bizarre but are easier to describe to emergency services than describing a location.

Locations are identified using a phone app. Go to [www.what3words.com](http://www.what3words.com) for more information.

**Please note:** inclusion in this list does not imply recommendation or endorsement by Carers' resource.

If you need further information or would like to discuss any aspect of your caring role, please contact Carers' Resource:

**Harrogate 01423 500555**

11 North Park Road, Harrogate, HG1 5PD

**Bradford 01274 449660**

15 park View Court, St paul's Road, Shipley, BD18 3DZ

**Skipton 01756 700888**

Ronaldsway House, 36 Brook Street, Skipton BD23 1PP
